

**SPECIFICATION AMENDMENT**

1. Please replace the paragraph beginning at line 3 page 11 with the following amended paragraph:

In the example embodiment, the hardware in each of those data processing systems includes one or more CPUs 32, random access memory (RAM) 37, ROM 36, input and output adapters 41, a network interface 44, and one or more system buses interconnecting the above components. Input and output adapters 41 receive data from input devices such as a keyboard and a pointing device and provide output via devices such as video displays.
